COMPANY NEWS

Chobe Business Update

The loosening of travel restrictions associated with COVID-19 towards the end of the previous financial year has led to a significant improvement in the Group's financial performance over the first quarter of this year with the projected outlook for the remainder of the year mirroring that improvement.

Occupancies across the Group at the end of the first quarter are comparable to those achieved in the last COVID-19 free Financial Year 2019/20 with those of the Group's premium brands showing the earliest signs of improvement and the most resilience going forward. There is a broad mix of both new and deferred bookings travelling on their traditional pre-COVID-19 rates model. International travelers now make up the majority of their guests, however the Group will continue to encourage Batswana to travel to its camps and lodges.

Chobe believes that shareholder value is created through having motivated, trained and empowered staff and that their people are a significant asset. Throughout COVID-19 they sought to protect their people and business partners, within their means, in order that they emerged from the pandemic stronger within their work force as well as in their value chain. During the past two years some staff have elected to resign but have been replaced during this financial year. All staff benefited from a cost-of-living based salary increase in March.

The majority of the Group's revenue is received in United States Dollars providing some protection from local inflationary pressures. The Group is however not immune to global inflationary pressures particularly with respect to food and fuel.
