WHEN THE BANKNOTE IS HELD UP TO THE LIGHT, THE FOLLOWING FEATURE CAN BE SEEN

FEEL

TILT

WHEN YOU TILT THE NOTE YOU WILL SEE:

1 Engraving of the Bank of Botswana Building.

2 When the banknote is held up to light a watermark can be seen.

3 Three brown dots to aid the visually impaired can be felt when running your fingers over the edge of the note.

4 The different colour lines create a moire effect that simulates colourshifting movement.

5 The thread displays an animated effect of a running athlete. In the foreground there is also a "50" which does not move.

The ribbons in the background also move in tandem with the running athlete.
